---

## STATEMENT

A recent graduate who fell in love with frontend software engineering at the end of her undergraduate studies. My focus is studying software and I'm seeking an entry-level position to gain knowledge of the industry.

## SKILLS

React, HTML, CSS, JavaScript, Ruby, Bootstrap, Responsive Design, npm, yarn, git version control, Atom, Confluence, GitHub Issues/Projects & Frontend Development

## PROJECTS

- Breast Check - a hackathon submission made to empower women using React.JS to locate a breast cancer screening center near them using Google-Maps-API
- Natic - a core platform made to serve banks and fintechs by centralizing processing using a React.JS/Django/Python/Postgresql/Docker tech stack
- Roomba - A coding challenge made using React.JS that accepts a JSON file in a file uploader, then uses logic to manipulate it and return the data dynamically into a table

## EXPERIENCE

### **Texas Commission on Environmental Quality, Austin, Texas – Intern**

JULY 2019 – DECEMBER 2019

- Caught the Water Quality Department up to date by organizing and routing backlogged water permits.

### **Visiting Angels, Georgetown, Texas – Administrative Assistant**

JUNE 2018 – APRIL 2019

- Updated and eliminated our paper records by uploading them to our dynamic electronic health record.

## EDUCATION

### **Texas State University – Bachelor of Science in Health Science**

JUNE 2017 – DECEMBER 2019

- Transferred community college credits and completed undergraduate coursework.
